The SIM PMO's official responses to questions submitted as of 2pm, February 14, 2018 are as follows:

1. **Question:** Sections 2 and 4.3 outline responsibilities for the part-time project coordinator. Can you give an estimate as to how many hours per week or month this person may be required to work on this project, especially in terms of information and meeting requests from the State?

Response: We estimate that the part-time coordinator should be prepared to devote 10-20 hours per week. Time required may vary from week to week and over the course of the engagement.
